OBJECTIVE

A passionate and driven Bachelor of Computer Applications (BCA) student at IME College, working toward becoming a skilled full-stack MERN developer and python developer . Currently diving deep into MongoDB, Express.js, Next.js, React.js, and Node.js, while also mastering Python, JavaScript and TypeScript. My focus is on building complete, real-world applications that actually solve problems—not just run in theory.

EDUCATION

Bachelor of Computer Application, CCS University

2024 - 2027

SKILLS

Technical Skills	JavaScript, TypeScript, Python, C, C++
Frameworks/Technologies	Node.js, React.js, Next.js, HTML, CSS, Firebase,MongoDB, MySQL, Django
Tools	VS Code, Git, GitHub, Docker, AWS
Concepts	Data Structures & Algorithms, OOP, DBMS, Operating Systems

EXPERIENCE

Full Stack developer

May 2025 - Aug 2025

Razorse software pvt. ltd

Delhi, India

- Worked on client web applications as a Junior Software Development Intern.

Fullstack developer

May 2024 - Present

Fiverr, Freelancer

Delhi, India

- Working as a freelance full-stack developer, building complete web apps using MongoDB, Express.js, React, Next.js and Node.js. Handled everything from front-end UI to back-end APIs and deployment.

PROJECTS

AlgoAnalyzer AlgoAnalyzer is a full-stack algorithm visualizer built with React and Express. Select an algorithm, enter your input, and step through every operation while watching the exact line of code highlight in real time — in Java and C++.

SyncNote A full-stack real-time collaborative notes application where multiple users can create, edit, and share notes simultaneously. Built with the MERN stack, Socket.io, Yjs, and TipTap.

DocConverter A web app to convert files between PDF, Word, Excel, Images, and HTML formats using a Python + Flask backend and a modern frontend built with Next.js and Tailwind CSS.
